### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Divine on 11/02/2006.

The application has been amended as follows: claim 26 has been cancelled.

2. The following is an examiner's statement of reasons for allowance: claims 11 and 25 are allowable for setting forth a saw comprising a cutting guide having a body portion and an engagement portion concentrically attached to the body portion, wherein the engagement portion is constructed of one of rubber and plastic and the body portion is cylindrical and is constructed of a hardened metal.

For example, Carroll teaches a guide for a tape measurement capable of being used as a cutting guide for a saw comprising a body portion 14. Carroll fails to teach an engagement portion concentrically attached to the body portion, wherein the engagement portion is constructed of one of rubber and plastic and the body portion is cylindrical and is constructed of a hardened metal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
